

## **PRIDE OF KENYA LION CENSUS**

The "Born Free Foundation" is undertaking an informal lion census in Kenya which would greatly benefit from the "casual" help of visitors on safari.

Rhino River Camp is pleased to be part of this census and is asking its guests to participate by taking with them the attached Lion Sighting Form while on a Game Drive.

The exercise is simple. Every time you encounter lions in Meru National Park, you record briefly your sightings and observations and hand them over to the management of the Camp. If you take any pictures and can provide them, so much the better. Born Free Foundation will be collaborating with other research initiatives (such as those from KWS and "Living with Lions") to build an ID database. If you don't mind sharing your lion pictures, tell the managers and they can transfer those on to the Camp computer together with your completed Lion Sighting Form.

Thank you and we hope you enjoy being a member of our research team.
